

IPOS Survivorship SIG

Co-Chairs: Prof Michael Jefford (Australia) and Dr Christina Signorelli (Australia)

The **IPOS Survivorship Special Interest Group's** goals are to develop an international professional network, build awareness of survivorship issues, provide education opportunities (e.g. hosting webinars), promote and disseminate research findings, and to inform policy on best practice Psycho-Oncology care in survivorship.

Key accomplishments:

1. Completed data collection and analysis for three research initiatives: (i) audit of IPOS abstracts presented at World Congress, (ii) audit of national cancer plans, (iii) global survivorship survey – results presented at World Congress in Toronto
2. Hosted three survivorship-focused webinars
3. Maintained public-facing website about psycho-oncology and survivorship

Key initiatives underway for 2023:

1. Complete data analysis and disseminate research findings – papers in development
2. Plan and commence next steps from audit and global survey (e.g. guidelines)
