

# Education Committee

**Chair (s):** Maria Die (Spain), Tania Estapé (Spain), Daisuke Fujisawa (Japan)

**Goal:** to approve training requests that apply for IPOS endorsement , according to IPOS values

Up to two key accomplishments:

1. For local CANCER SPECIFIC TRAINING program (in person, virtual, webcast, workshop) that may request IPOS endorsement, an email containing the form to be filled out. This form was designed to ease and to homogenize the procedure. It can be found in the IPOS website at: [download/complete/submit the following form](#)
- 2). The completed form should be first submitted to IPOS, then IPOS Admin should send to the IPOS Executive Director for passing along to the Education Committee for review and consideration.
  - Two-months advance required (minimum), unless the applicant needs approval in less time, which should justify
  - 3) Usually approval of requested trainings is made by chairs, unless one or more of them are part of the training to be approved, in that case, it will be assigned to other members

### Three key initiatives underway for 2024:

1. Continue with the same procedure
2. Try to involve more training and public education activities for patients and the general population
3. In 2023 we have updated the list of members who had formerly been part of this SIG, and included some new applicant. After contacting them and receiving signs of interest, or not, the current membership list is as follows, in alphabetical order: Ozan Bahcivan, Barry D. Bultz, Miri Cohen, Gil Goldzweig, Annett Korner, Anja Mehnert, Maggie Watson, Joachim Weiss
4. Think off the need to design a CV for Psychooncologists
